

COMPUTEX Taipei Forum  
NGN 2008 Technology Session

***Compression technology  
immerses NGN consumer in HD***

**Wednesday, June 4 1:00 PM -1:40 PM**

**Speaker :**

Michael Thuresson

Product Planning Manager

**NTT Electronics Corporation**

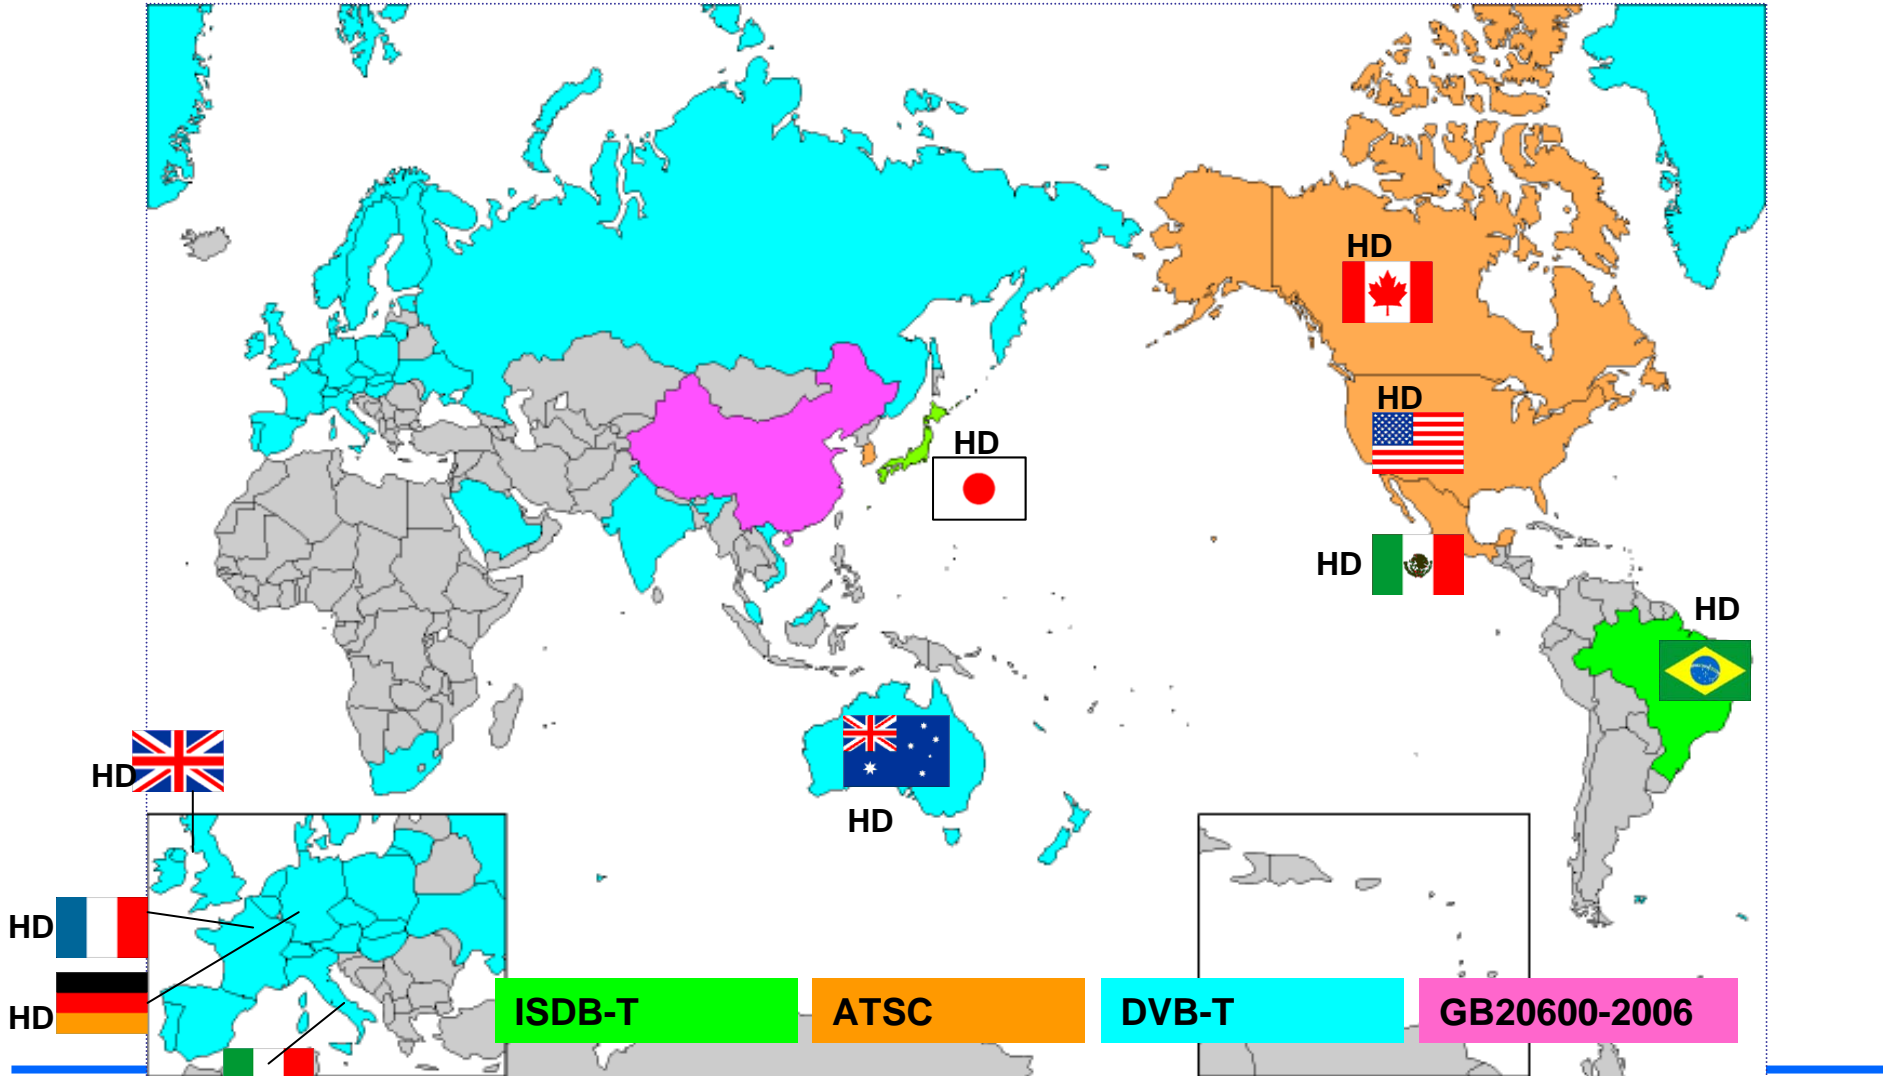

# Increase Video Communications by Spreading NGN Service

High Speed Network  
Spread of Broadband  
Bandwidth Guarantee

# World Transition from Analog to Digital, SDTV to HDTV Broadcasting

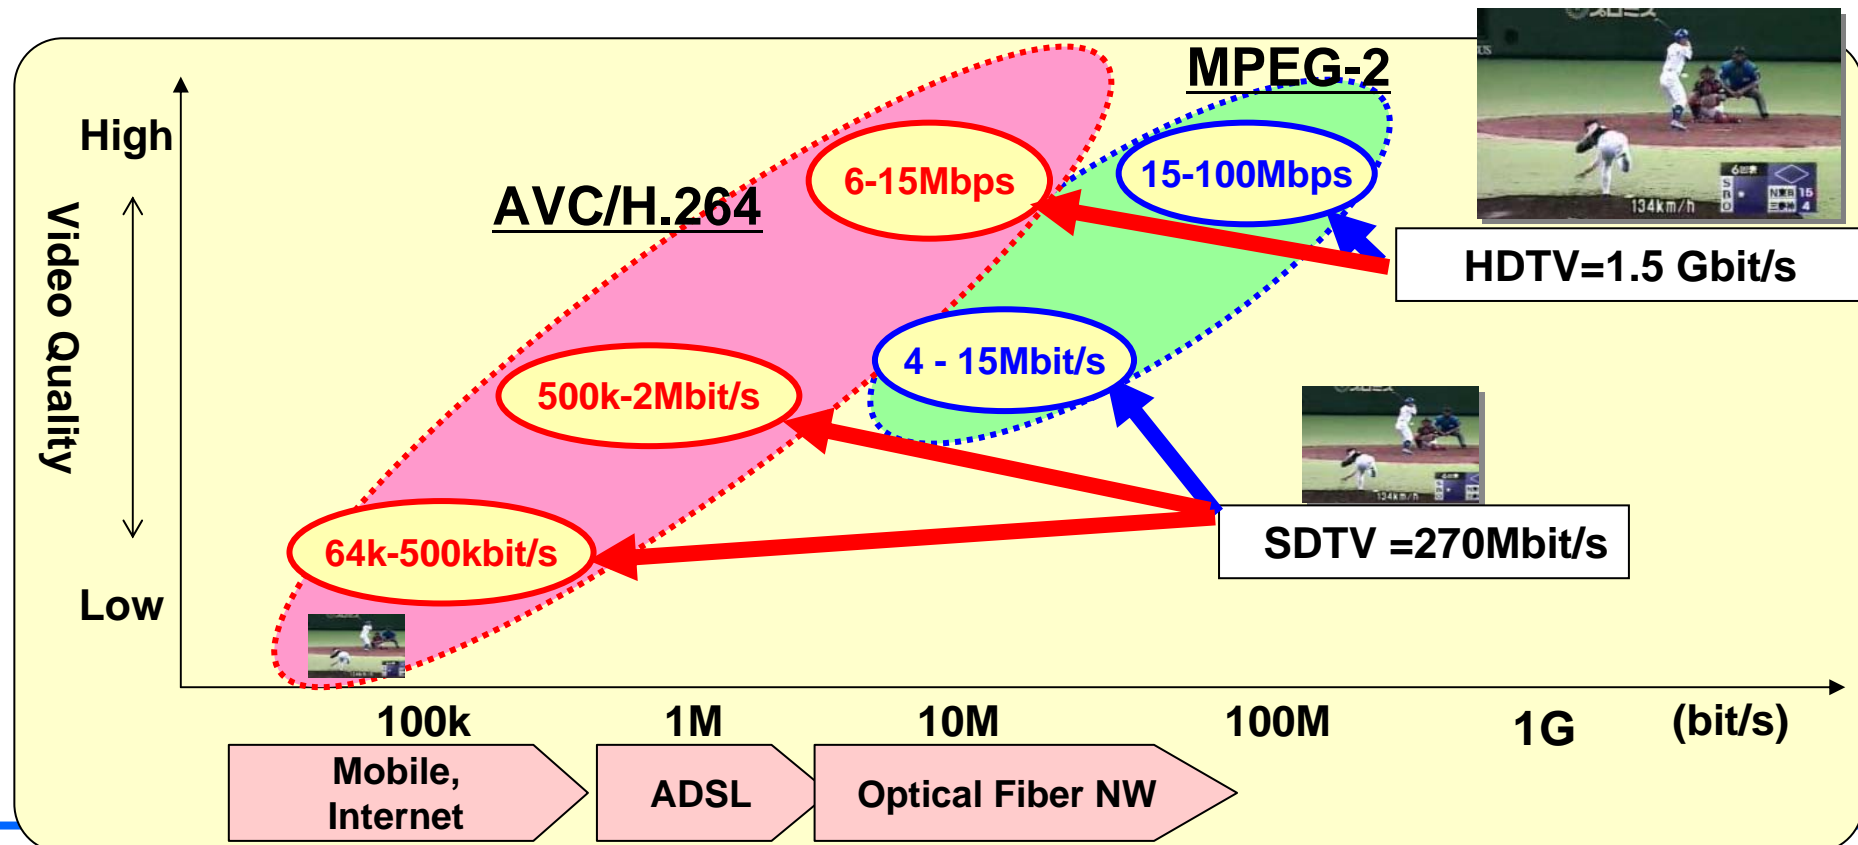

# Compression needed for Video transmission or recording

- Should be compressed at Video transmission or recording because;
  - Original video data is **1.5Gbit/s**.

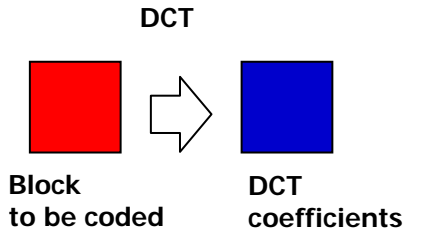

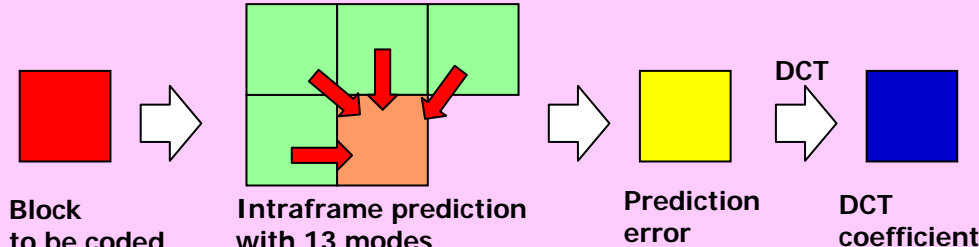

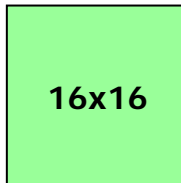

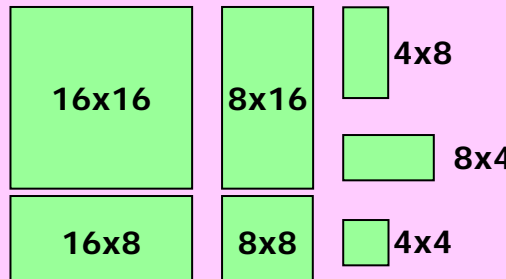

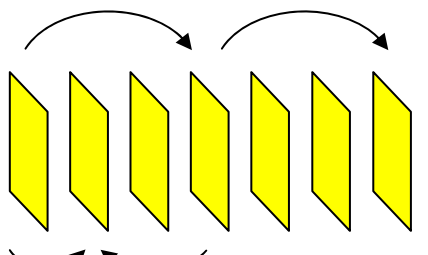

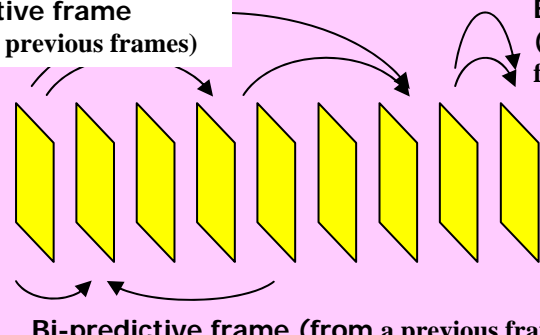

# Compression needed for Video transmission or recording

- MPEG-2 is the most common compression technology.
- AVC/H.264 compression efficiency is more than double that of MPEG-2.

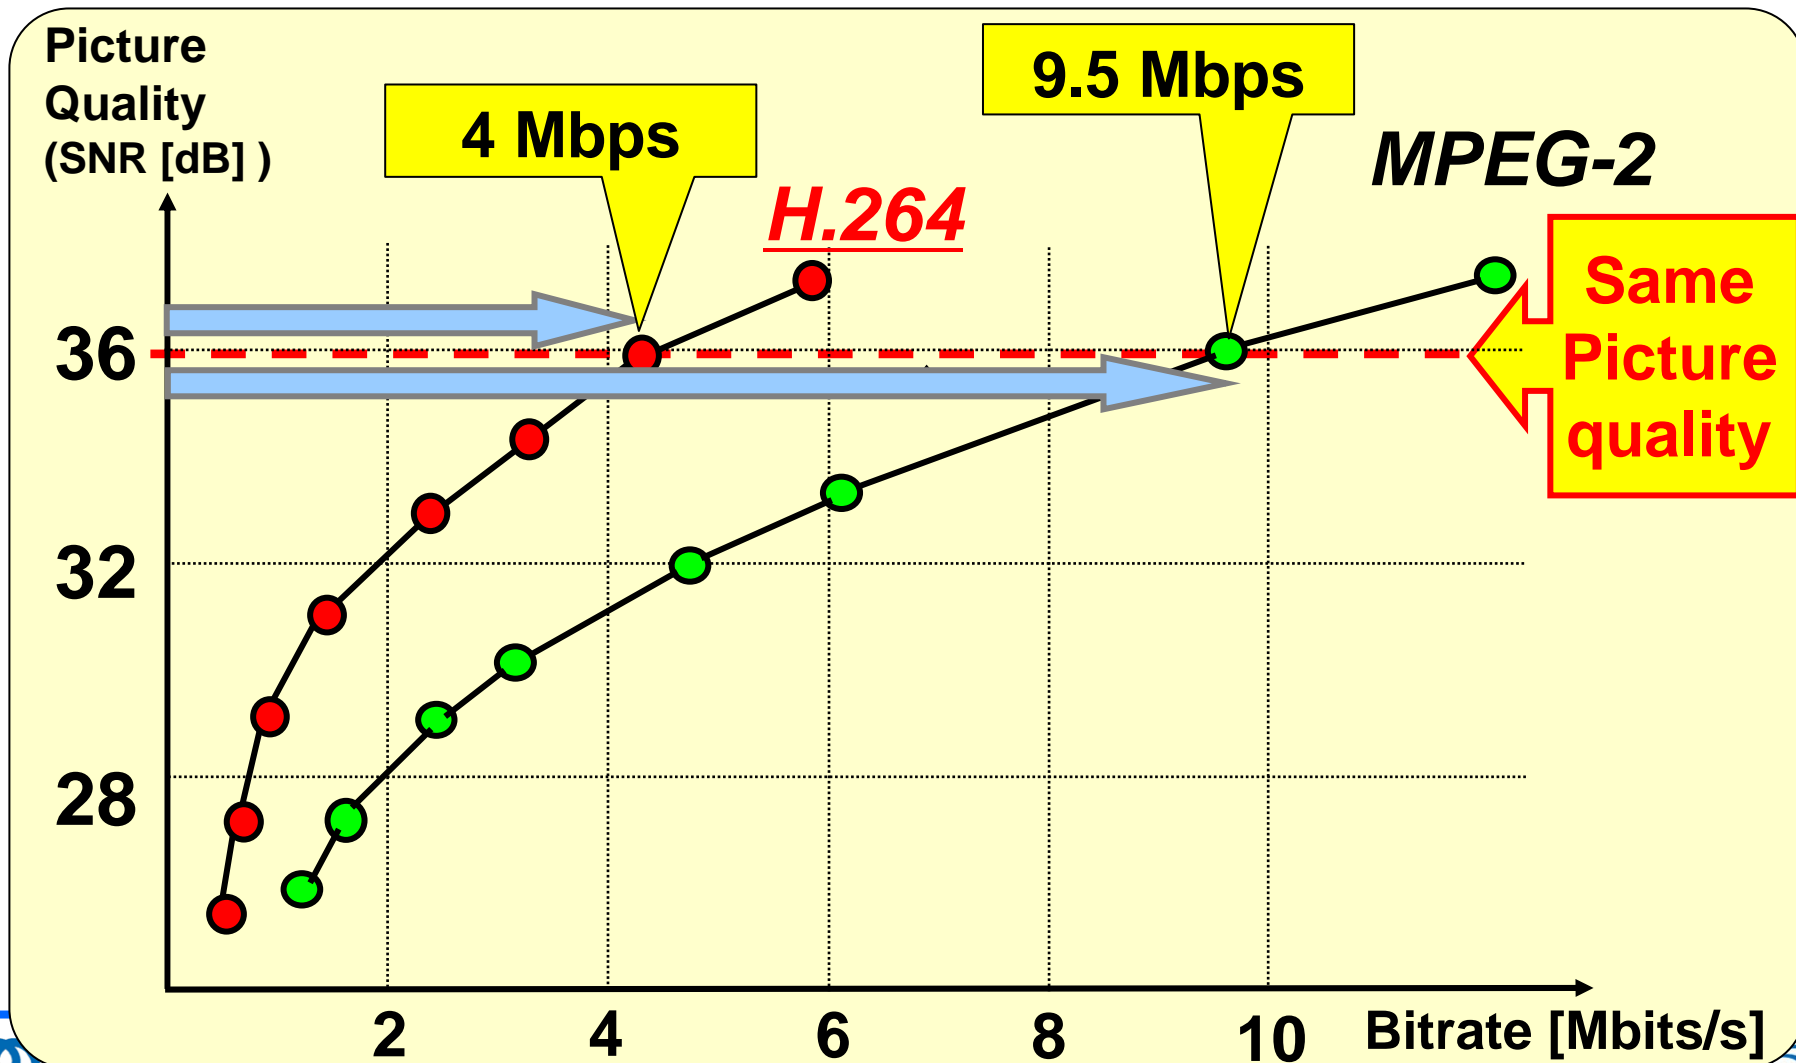

# AVC/H.264 Advanced Technical Features

Features	MPEG-2	AVC/H.264
<b>Intraframe prediction</b>	 <p>DCT</p> <p>Block to be coded</p> <p>DCT coefficients</p>	<p><b>•Reduce the quantity of code</b></p>  <p>Block to be coded</p> <p>Intraframe prediction with 13 modes</p> <p>Prediction error</p> <p>DCT coefficients</p>
<b>Variable block Size motion compensation</b>	 <p>16x16</p>	<p><b>•Reduce the quantity of code for motion</b></p>  <p>16x16</p> <p>8x16</p> <p>4x8</p> <p>8x4</p> <p>16x8</p> <p>8x8</p> <p>4x4</p>
<b>Extension of reference frame selection</b>	<p>Uni-directional prediction</p>  <p>Bi-directional prediction from a previous frame and a future frame</p>	<p><b>•Reduce the quantity of code and improve the accuracy</b></p>  <p>Bi-predictive frame (from two previous frames)</p> <p>Bi-predictive frame (from a same reference frame)</p> <p>Bi-predictive frame (from a previous frame and a future frame)</p>

# AVC/H.264 vs MPEG2

## Coding Performance Comparison

## AVC/H.264 vs MPEG2

# Coding Performance Comparison

- AVC/H.264 compression efficiency is more than double that of MPEG-2.
  - But required processing power is 10-100 times that of MPEG-2's.
  - Even with the latest Core 2 Duo processor, real-time AVC/H.264 encoding is difficult.

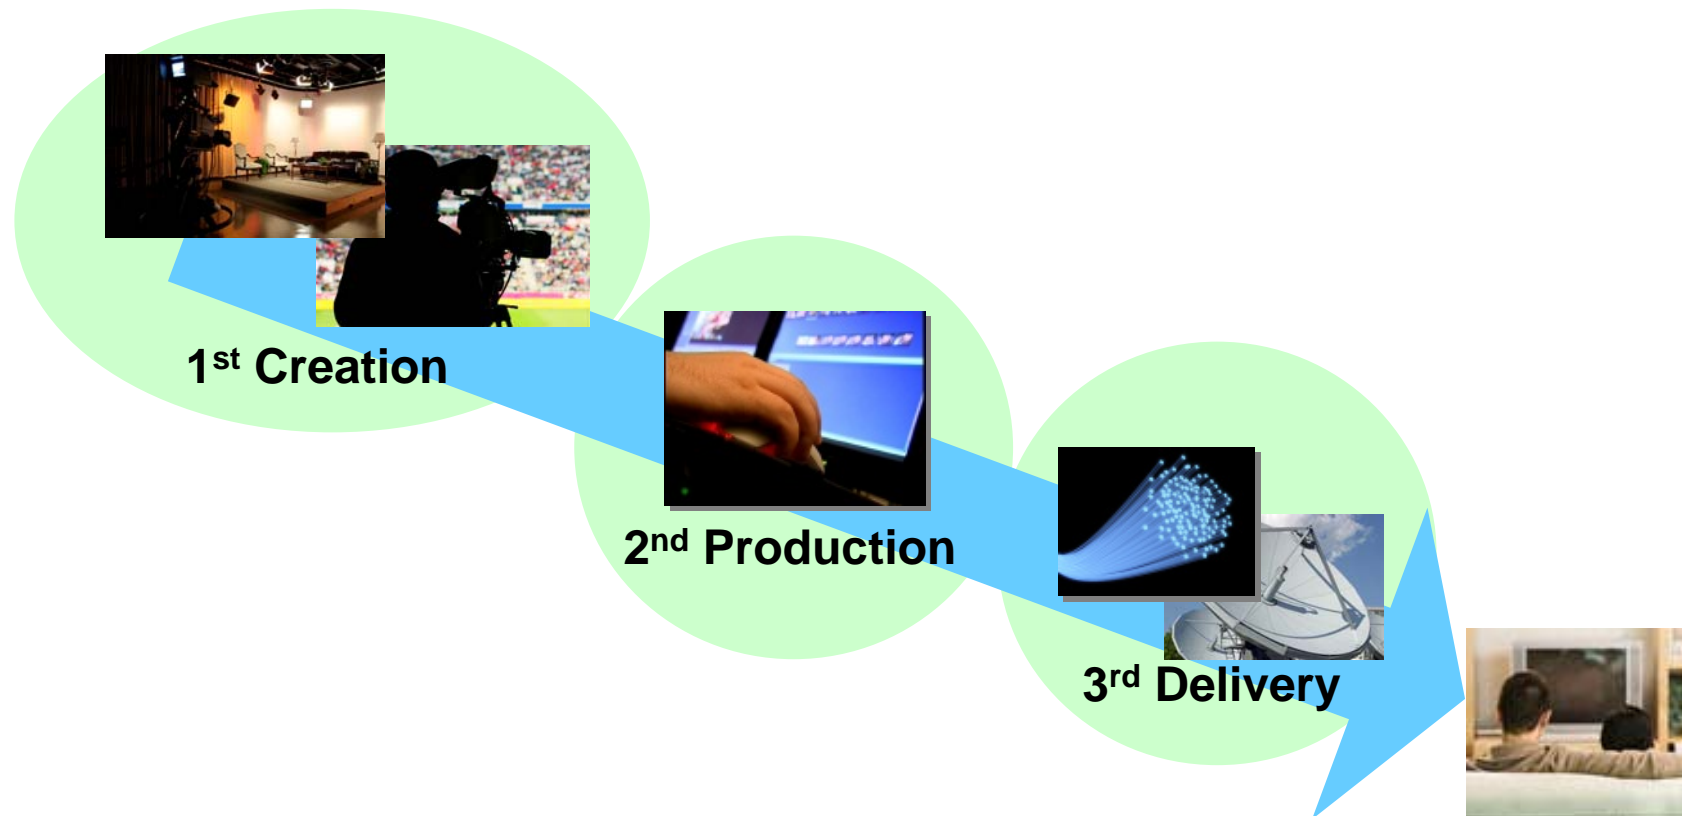

**High performance  
Codec IC is required!**

# From Content Provider to the Home

- At each step, the content needs to be encoded to decrease its huge data volume

# From Content Provider to the Home

## 1<sup>st</sup> Creation

Maintaining high-quality video; requirements:

- ✓ Supporting 4:2:2 Chroma
- ✓ High Bitrate
- ✓ Low Latency

1<sup>st</sup> Creation

2<sup>nd</sup> Production

3<sup>rd</sup> Delivery

# From Content Provider to the Home

## 2<sup>nd</sup> Production

Maintaining high-quality video; requirements:

- ✓ Supporting 4:2:2 Chroma
- ✓ High Bitrate
- ✓ Supporting Multiple Video Formats

1<sup>st</sup> Creation

2<sup>nd</sup> Production

3<sup>rd</sup> Delivery

# From Content Provider to the Home

3<sup>rd</sup> Delivery

To transmit high-quality video within limited bandwidth; requirements:

- ✓ **Low Bitrate**
- ✓ **Variable Bitrates for Statistical Multiplex**

1<sup>st</sup> Creation

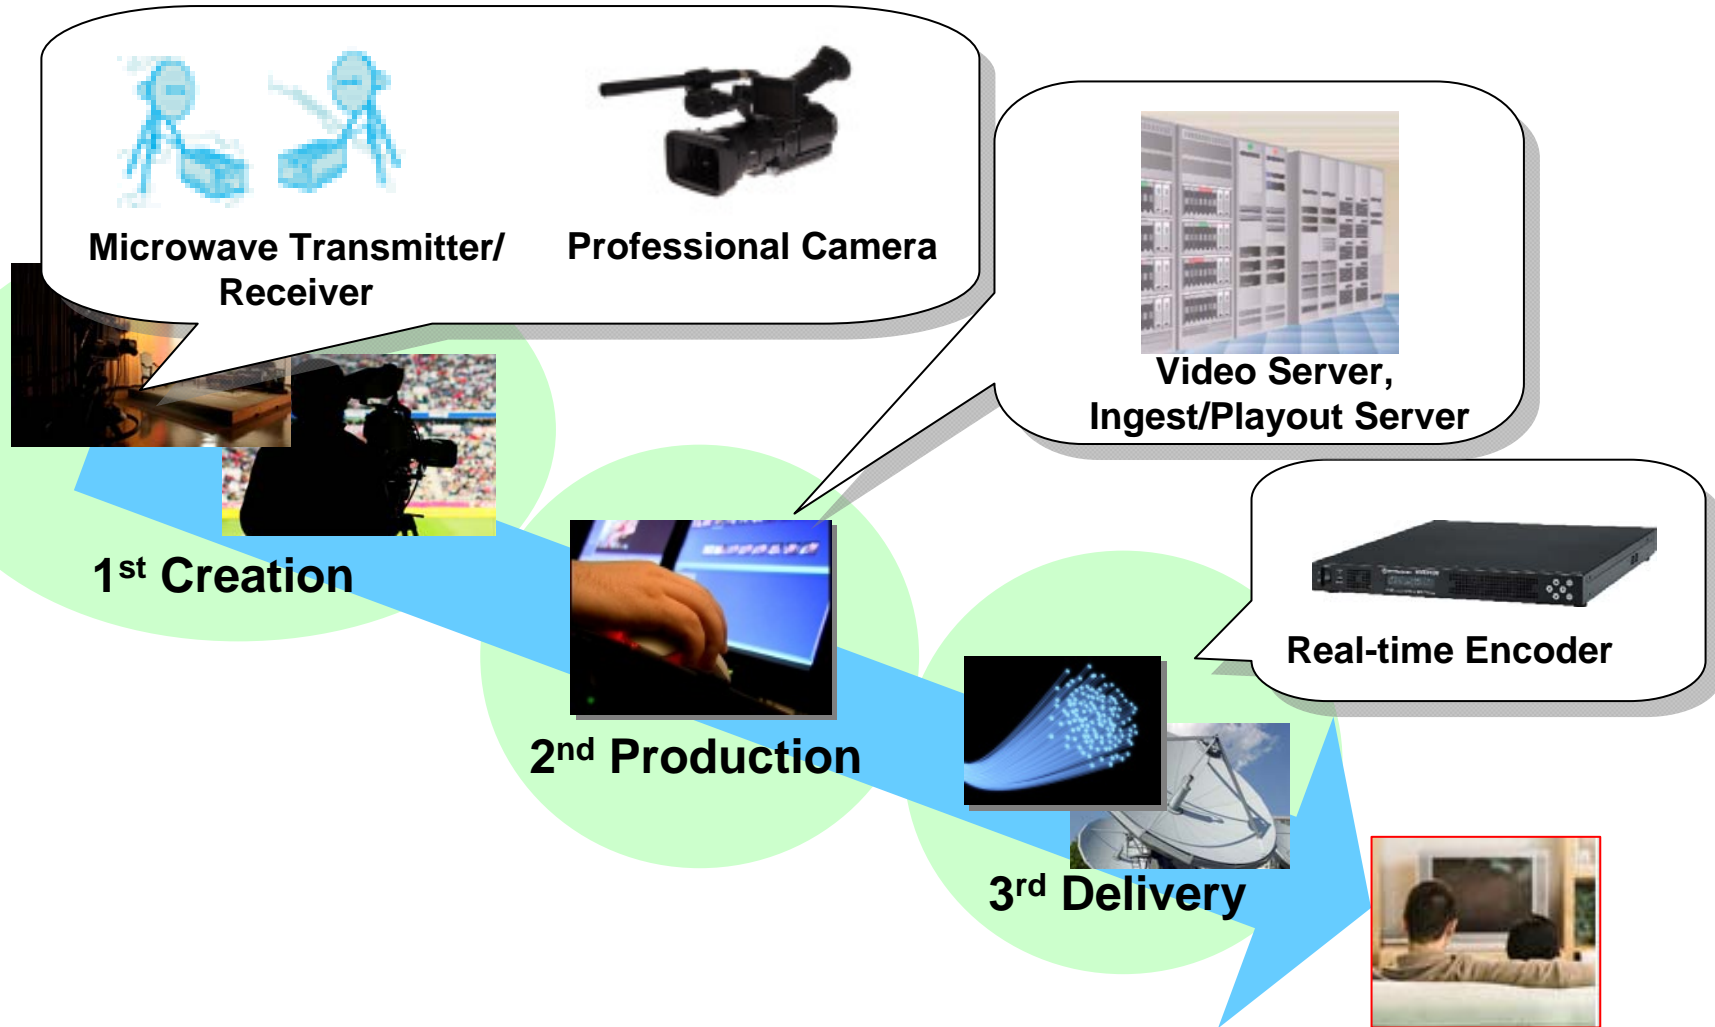

2<sup>nd</sup> Production

3<sup>rd</sup> Delivery

# From Content Provider to the Home

# From Content Provider

**High  
Video Quality**

**Super  
Low Latency**

**Our professional codec devices  
cover all professional products.**

# Home Network & Codec Technology

# Home Network & Codec Technology

## MPEG-2 to AVC/H.264 Transcoding

- Optimize storage environment with MPEG-2 to AVC/H.264 Transcoding technology
  - Amount of HD content is exploding
  - PVR: Demand for viewing a missed program by a time shift play

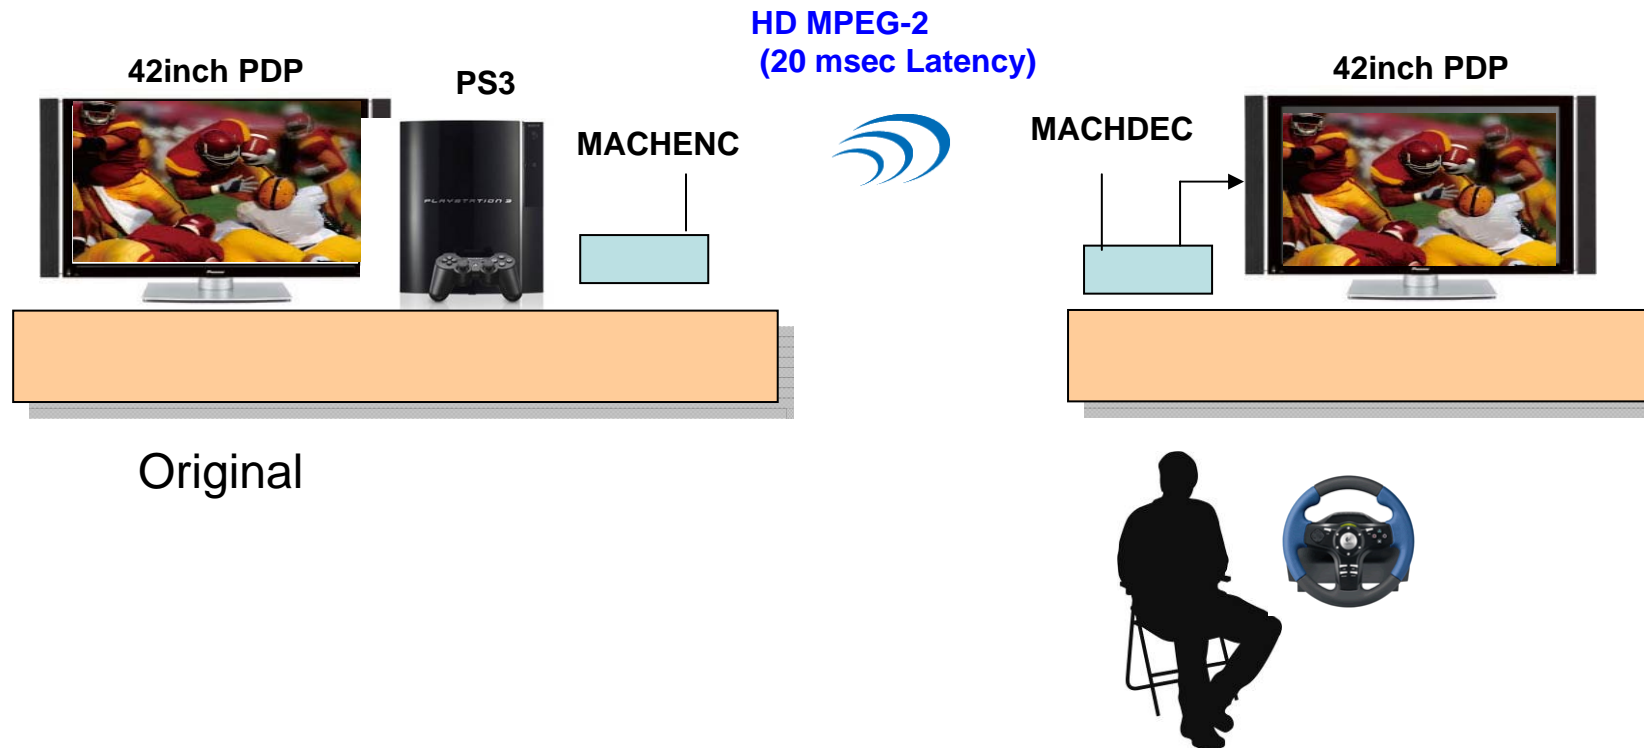

Half the bit rate and double the compression ratio

# Home Network & Codec Technology

## Wireless + Low Latency Codec

- See a live demo of enjoy gaming by our **super low latency** codec technology

# Compression Technology Immerses More Video Products in HD

## Digital Home

## AV PC

**MPEG-2  
AVC/H.264**

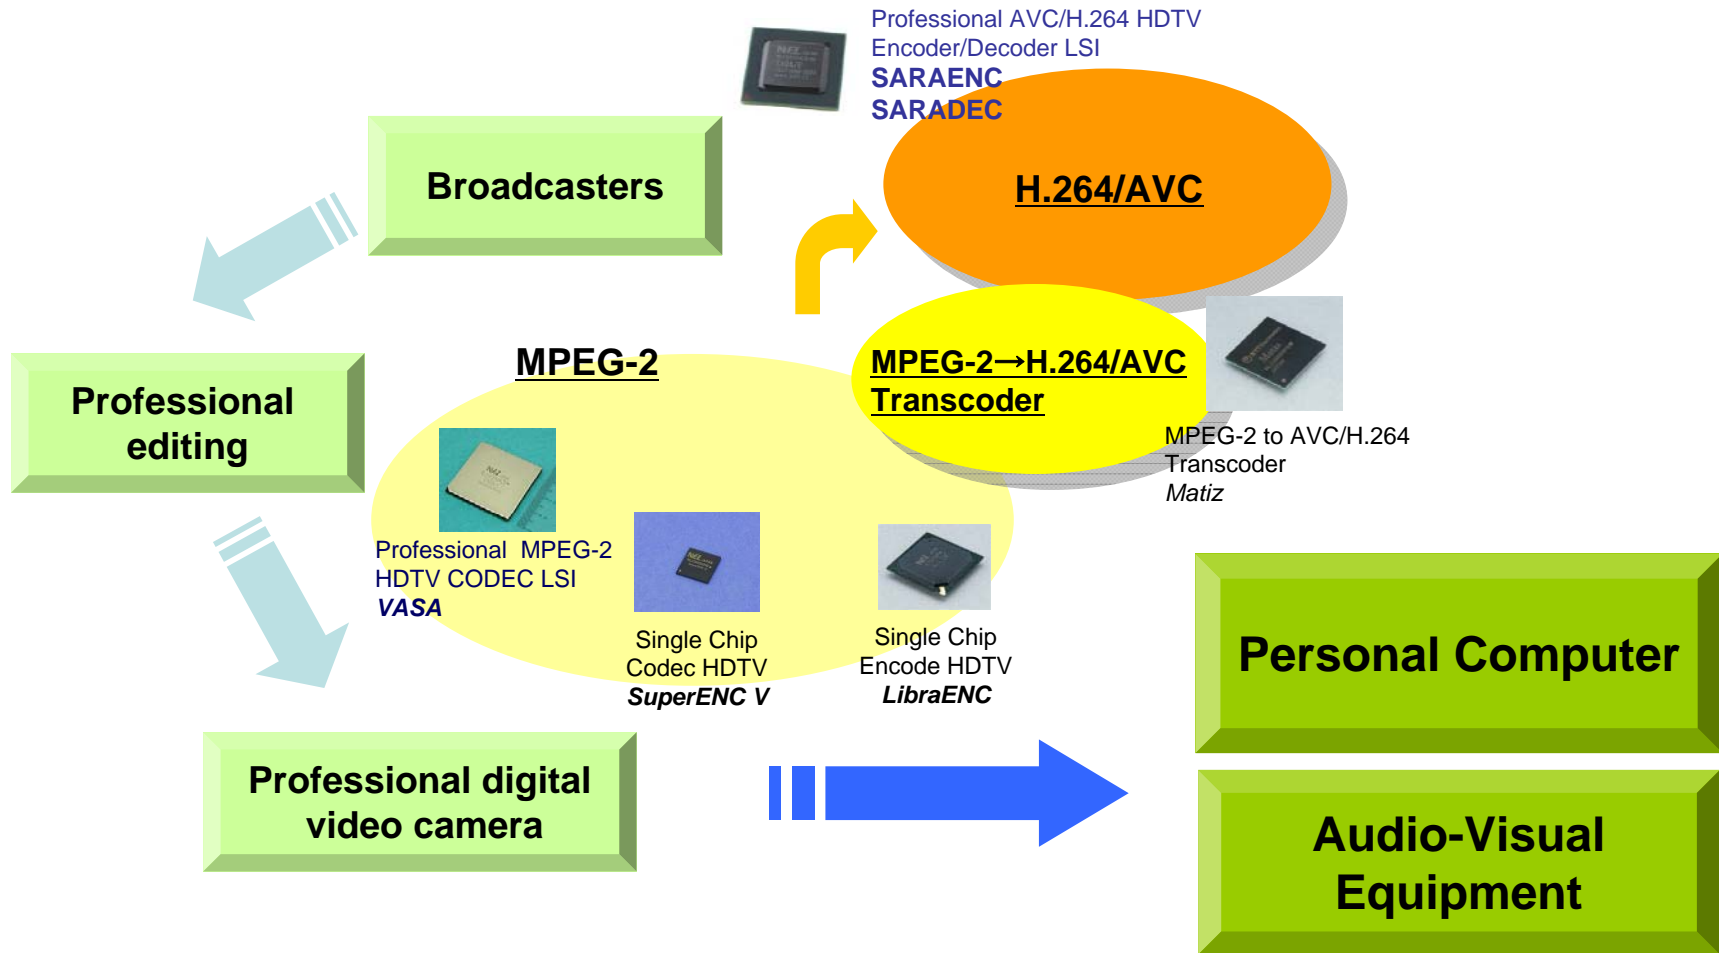

## Video Surveillance

## HD World

# NTT Electronics Video Compression Development

# NTT Electronics Video Compression LSI Line-up for consumer

## MACH

Low Latency  
HDTV MPEG-2 Encoder LSI

## Matiz

HDTV Transcoder LSI  
(MPEG-2 to H.264/AVC)

## SuperENC V

HDTV MPEG-2 Codec LSI

## LibraENC

Low Latency  
HDTV MPEG-2 Encoder LSI

## PINEA

AVC/H.264 Standards LSI  
(PCI-express Interface)

### Application

# Visit Our Booth at COMPUTEX TAIPEI

NTT Electronics is exhibiting new products and technologies  
at “COMPUTEX TAIPEI”, **Booth No. M128.**

Come experience a large-screen demo showcasing extremely  
*low latency and Professional-level video quality!!*
